

Skedulo for Healthcare Therapy

Provide Your Clients the Right Care at the Right Time

Scheduling and managing therapy treatment across weeks and months is challenging. With Skedulo's Therapy Solution, you can easily maintain continuity of care across recurring appointments, match therapists to client need and preference, validate authorizations, and coordinate services across multiple locations. With Skedulo, you can provide your clients with the right care at the right time.

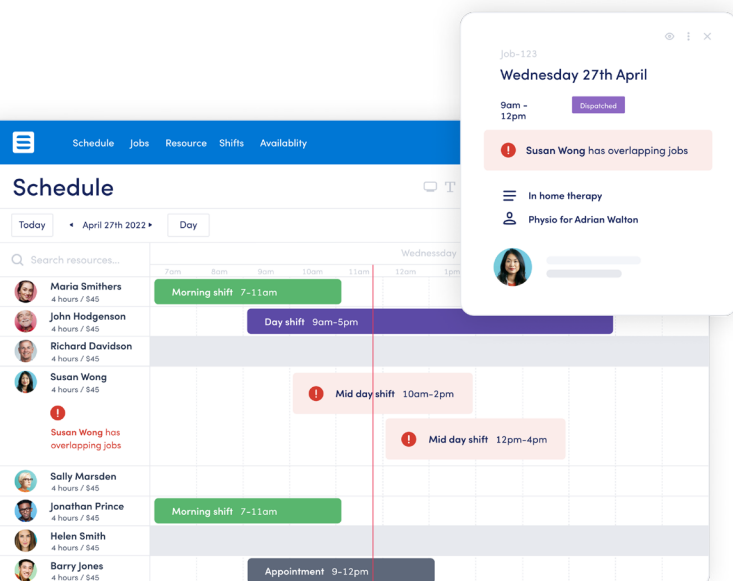

Improve Provider Retention & Satisfaction

Care providers' satisfaction is often correlated to how they spend their time. Taking into account their scheduling preferences and number of hours they work per week commitment to their wellbeing.

Communication Delight your care providers and clients with real time communication and feedback.

Mobile-optimized Empower care providers and make them 20% more productive with an easy-to-use mobile app.

Route Optimization Reduce drive time for your care providers by routing them safely and efficiently to appointments.

Schedule More Efficiently

Solve the complicated process of managing recurring services and ensure your clients get high quality care from the right provider.

Optimized Scheduling: Reduce manual scheduling efforts by 48% with Skedulo's booking grid.

Client Availability: Manage your client's availability and keep a consistent and up-to-date schedule of appointments.

Recurring Services Management: Allocate a preferred or consistent provider to a client to ensure continuity of care.

Client to Care Provider Matching: Use tags to match your client with the most appropriate care provider.

Maximize Billable Hours

Avoid underutilization and missed billable hours. Reduce appointment cancellations and no-shows.

Appointment Rescheduling: Easily and seamlessly update appointments.

Billing & Reimbursements: Increase billable appointments by 15% by tracking time spent and tasks completed.

Compliance: Gain greater visibility into authorization metrics to ensure compliance.

Deliver a Higher Quality of Care

Give your clients the ability to stay engaged and connected with their care team. Provide them with appointment updates and reminders.

Mobile-optimized: Stay connected to your clients and ensure transparent and real-time communication through an easy to use mobile app.

Appointment Reminders: Lessen last minute cancellations and no-shows by providing your clients with regular appointment reminders.

Client Preferences: Capture and take into consideration your client's preferences when creating and scheduling a comprehensive care plan.
